Anaphylaxis in the ED: A Reference for Physicians

Instructions for creating a pocket-sized flyer:

Fold the 8 ½ X 11" printed sheet vertically along the dotted line, printed side out (folded edge to the right), like this:

Make two parallel folds along the horizontal dotted lines: Fold the top panel back and down and the bottom panel up.

This will create six panels of equal size – three panels on each side of the flyer.

When folded flat, the flyer will look like this:
