World Allergy Organization (WAO) is an international umbrella organization consisting of 108 regional and national allergology and clinical immunology societies from around the world. By collaborating with member societies, WAO provides educational programs, symposia, and lectureships to members in nearly 100 countries. Founded in 1951, WAO has successfully organized 25 major congresses. The WAO mission, as a worldwide alliance of allergy and clinical immunology societies, is to be a global resource and advocate for the specialty, advancing awareness and excellence in clinical care through education, research, and training. WAO publishes the World Allergy Organization Journal; 2021 two-year IF 5.516.

X4 Pharmaceuticals*

Booth 609

Product Category: Diagnostic Testing; Physician Education

955 Massachusetts Avenue
Cambridge, MA 02139

Contact Email: stephani.keetch@x4pharma.com

X4 Pharmaceuticals is a late-stage clinical biopharmaceutical company and a leader in the discovery and development of novel therapies for the treatment of diseases of the immune system via antagonism of the CXCR4 pathway, with a focus on rare diseases and those with limited treatment options. We believe that inhibition of the CXCR4 receptor creates the potential to provide therapeutic benefit across a wide variety of diseases, including primary immunodeficiencies, certain types of cancer, and WHIM syndrome, a rare, inherited, primary immunodeficiency disease caused by genetic mutations in the CXCR4 receptor gene.
