Message From the Program Chair

Advancing Allergy/Immunology Discovery

Kristin C. Sokol, MD,
MS, MPH, FAAAAI
Annual Meeting
Program Chair

We are thrilled to invite you to the 2025 Annual Meeting of the American College of Allergy, Asthma, & Immunology (ACAAI), taking place in sunny Orlando from November 6-10, 2025. Whether you are attending for the cutting-edge scientific content, the Podium to Practice® takeaways or the opportunity to network with colleagues, this meeting promises something for everyone.

Don't miss our Thursday program, "Spotlight on Allergic Conditions of the Skin," featuring a stellar lineup of experts in allergy, immunology, and dermatology.

Plenary sessions will cover exciting new developments in severe asthma, practical approaches to drug allergy evaluation and treatment, and the future of allergy and immunology therapeutics.

As always, we'll offer a full day literature review course, hands-on workshops, fantastic ePoster sessions, and the ever-popular FIT Bowl™ – a fantastic way to unwind and connect with friends and colleagues.

We look forward to seeing you in Orlando for an unforgettable event!

Thursday Program Spotlight on Allergic Conditions of the Skin

Join us for a full-day educational event, Spotlight on Allergic Conditions of the Skin, designed to explore the latest advancements, diagnostic techniques, and management strategies for a variety of allergic skin disorders. This comprehensive program will provide attendees with expert insights and practical knowledge applicable to clinical practice.

The Thursday Program will feature in-depth sessions led by experts in allergy, immunology, and dermatology. Topics will include:

- **Angioedema:** A discussion of the clinical features of both histaminergic and non-histaminergic angioedema, as well as the underlying mechanisms and approaches to managing this potentially life-threatening condition.
- **Chronic Spontaneous Urticaria (CSU):** A review of the burden of disease, pathophysiology, emerging treatments, and strategies for patient-centered care in CSU.
- **Atopic Dermatitis (AD):** Insights into supportive care, new therapies, updates on the role of the immune system in AD, and considerations for tailoring treatment plans to individual patients.
- **Chronic Itch (Pruritus):** A session dedicated to the latest understanding of itch pathways and innovative approaches to alleviate chronic itch.
- **Contact Dermatitis Patch Testing:** Practical guidance on conducting and interpreting patch tests to identify allergens in contact dermatitis, with a focus on common pitfalls and challenges.
- **Drug Allergy Patch Testing:** An overview of drug allergy evaluation using patch testing, including case-based discussions to enhance learning.
- **Delayed Hypersensitivity to Metals and Other Implants:** The diagnostic approach to identifying this controversial condition.
- **ProCon Debates:** Get ready for a lively and engaging session featuring pro/con debates on key topics in allergic skin diseases. Expert clinicians will present opposing viewpoints on controversial issues, sparking insightful discussions and offering practical, evidence-based perspectives.

ACAAI 2025 Annual Scientific Meeting

Annual Scientific Meeting Information	3–6	Friday Practice Management Program	22–23
Education Information	7–8	Friday Advanced Practice Health Care Providers Course	24–25
Named Lectures	9	Fellows-in-Training Program	26–27
Livestream Program	10	Saturday General Sessions	28–34
Hands-on Workshops	11–14	Saturday Allied Health Professionals Course	35–36
Thursday Program	15–16	Sunday General Sessions	37–44
Friday Annual Literature Review	17	Monday General Sessions	45–47
Friday General Sessions	18–21		

Annual Meeting Website

Visit the [2025 Annual Meeting website](#) for up-to-the-minute meeting details.

Orlando Information

Discover what there is to see and do in [Orlando](#). Discounts on nearby attractions are available to ACAAI Annual Meeting registrants and their families.

Registration Information

Your registration fee includes access to all general sessions, including symposia, plenaries, online Continuous Assessment Program (CAP) Review, oral and ePoster abstract sessions, Ask the Experts, Clinical Conundrums, Interdisciplinary Panel sessions, ProCon Debates, the Friday Practice Management Program, Practical Applications at Work, Panel Discussions, Product Theaters and Non-CME Corporate Forums, as well as the exhibit hall and various social events. It does not include the optional Thursday Program, Annual Literature Review, Hands-on Workshops or other courses with a separate registration fee.

Additional Ticketed Sessions

Separate Registration required. Visit [annualmeeting.accai.org](#) for details.

- Thursday Program
- Annual Literature Review
- Hands-on Workshops
- Advanced Practice Health Care Providers Course and Allied Health Professionals Course. Registration for these courses is limited to allied health professionals only.

NPI numbers are requested during the registration process in accordance with Sunshine Act provisions.

Complimentary On Demand Access to 2025 Annual Meeting Recorded Presentations

Registrants will receive complimentary access to all recorded ACAAI 2025 Annual Scientific Meeting sessions. View and obtain credit for 50+ hours of On Demand presentations through the College website.

Please visit [ACAAI On Demand](#) for details and opportunities to gain CME credit.

On Demand sessions will be available approximately four weeks after the close of the meeting.

Housing Information

The ACAAI Annual Meeting will be held in the West Building of the Orange County Convention Center in Orlando, FL. The convention hotels include the Hyatt Regency Orlando and Rosen Plaza hotels. Both hotels are within walking distance to the convention center.

Hotel reservations must be made through onPeak (the official ACAAI Housing Bureau) either online or by phone. A credit card guarantee is required. The hotels will not accept reservations directly.

ACAAI 2025 Annual Scientific Meeting

Hotel Room Rates:

Hyatt Regency Orlando

\$322 (includes \$25 mandatory hotel fee) (+13.625% tax)
(Across the street from the Orange County Convention Center)

Rosen Plaza Hotel

\$269 (+ 13.5% tax)
(Adjacent to the Orange County Convention Center via sky bridge)

Make your reservation at:

<https://compass.onpeak.com/e/012607977>

800-584-9034 (U.S. and Canada)

312-527-7300 (International)

Mon – Fri., 9:00 am – 5:30 pm ET

You also may contact ACAAI housing via our support center by emailing ACAAI@onpeaksupport.com.

**The deadline for hotel reservations is
Wednesday, October 8, 2025.**

Hotel reservations/rate availability are not guaranteed after the room block is full or after **October 8, 2025**. Please register early – only a limited number of rooms are available at each hotel.

Warning! onPeak is the only official hotel provider associated with the ACAAI Annual Meeting. We have received reports that other companies are posing as official travel vendors for the Annual Meeting and may contact you to offer hotels for your trip. They are not endorsed by, or affiliated with, ACAAI or the Annual Meeting, and entering into financial agreements with such companies is not advised.

Airline Travel Information

To book your airline reservation, call ACAAI's official travel agency, Uniglobe Travel Partners at 1-888-272-0005 (Monday – Friday, 8:30 am – 8:00 pm ET). As a special incentive for ACAAI Annual Meeting travelers, Uniglobe Travel is able to provide a discount of up to 8% on tickets booked on Delta and United Airlines.

Complimentary Access to Videos From the Continuous Assessment Program (CAP) Review

All Annual Meeting Registrants will have complimentary access to pre-recorded CAP Review presentations through the College Learning Connection®. The CAP Review is a literature-style review covering most of the articles chosen by the ABAI for the current six-month cycle of the CAP. The online presentations focus on key aspects of the study design, results, and implications for practice. The goal of this session is to help prepare attendees for Block 2 of the ABAI CAP program. Annual Meeting Registrants will receive a direct link to the complimentary presentations in advance of the Annual Meeting.

Child Care Services

Please contact the concierge at the hotel where you are staying for a list of bonded independent babysitters and babysitting agencies. Note: Children under 12 are not admitted into sessions rooms or the exhibit hall.

Doctors' Job Fair

Looking for new opportunities, an associate for your group or a buyer for your practice? The Doctors' Job Fair brings together all interested parties seeking or offering professional opportunities.

This unique program is scheduled for Saturday, November 8, 11:30 am – 3:00 pm. Representatives of clinics, groups and physicians' offices looking for associates will be among those conducting interviews, which will be held in semi-private/draped booths.

Education Program

All Education Program sessions are held at the Orange County Convention Center.

Thursday, November 6	8:00 am – 5:45 pm*
Friday, November 7	8:00 am – 4:30 pm
Saturday, November 8	7:40 am – 4:30 pm
Sunday, November 9	8:00 am – 4:30 pm
Monday, November 10	8:00 am – 12:30 pm

*Separate fee for attendance.

Exhibit Hours

Friday, November 7	2:00 – 6:00 pm
Saturday, November 8	9:00 am – 4:30 pm
Sunday, November 9	9:00 am – 1:30 pm

Continues on next page

ACAAI 2025 Annual Scientific Meeting

ePosters

ePosters provide an engaging and interactive visual presentation of abstracts and allow for online access with full search capabilities. Each presenting author has a 10 – 15-minute presentation slot.

ePosters will be on display in West Hall E of the Orange County Convention Center and will be assigned to monitors by category.

ePosters – Meet the Authors Presentation Schedule

Friday, November 7	2:35 – 6:00 pm
Saturday, November 8	11:30 am – 1:00 pm
Sunday, November 9	11:30 am – 1:00 pm

ePosters go live online Thursday, November 6 at 8:00 am ET, and are accessible online through the Annual Meeting website and meeting app. Search for specific topics or browse at your leisure. ePosters are accompanied by audio/video submissions detailing each abstract. ePosters will remain viewable on demand for six months following the Annual Meeting.

Late-breaking Abstracts

These impactful presentations, featuring the latest information on clinical research, will be presented in the Distinguished Industry and Late-breaking Oral Abstracts sessions on Saturday, November 8 from 4:30 – 6:00 pm.

Livestream Program

ACAAI will broadcast designated sessions through our Livestream platform. All Livestream sessions will take place at the in-person Annual Meeting and will be streamed in real time. Registration for Livestream sessions provides access to 19 different 90-minute sessions of ACAAI 2025 Annual Scientific Meeting content, providing up to 28.0* hours of CME Credits. Livestream registrants also receive complimentary access to the On Demand recorded sessions with up to 50+ additional hours of content and CME credit. **On Demand sessions will be available approximately four weeks after the close of the meeting.**

Livestream registrants are able to participate in real time, including Q&A with the session faculty. Please see [page 10](#) or visit annualmeeting.acaai.org/livestream.cfm for more details. All times are Eastern Time.

* Includes the Thursday Program and Friday Annual Literature Review sessions, which must be purchased separately.

You may register for Livestream access – or for in-person attendance at the meeting – but not both. Livestream registration closes on Wednesday, Nov. 5, 5:00 pm ET. No new registrations or changes of any kind for Livestream afterward.

Non-CME Corporate Forums and Product Theaters

These non-CME commercial presentations and promotional sessions are organized by industry and designed to enhance your meeting experience. All meeting attendees are invited to attend these sessions.

Non-CME Corporate Forums are scheduled before sessions on Friday, Saturday and Sunday, and at the end of each day on Thursday, Friday, Saturday and Sunday at the Hyatt Regency Orlando Hotel. Product Theaters are held during session break times in West Hall E at the Orange County Convention Center on Friday, Saturday, and Sunday.

Non-CME Corporate Forum Schedule

Hyatt Regency Orlando Hotel

Thursday, November 6	6:00 – 8:00 pm
Friday, November 7	6:45 – 7:45 am 7:45 – 9:45 pm
Saturday, November 8	6:30 – 7:30 am 8:00 – 10:00 pm
Sunday, November 9	6:45 – 7:45 am 6:00 – 8:00 pm

Product Theater Schedule

West Hall E, Orange County Convention Center

Friday, November 7	2:35 – 3:00 pm
Saturday, November 8	9:35 – 10:00 am 11:35 am – 1:00 pm 2:35 – 3:00 pm
Sunday, November 9	9:35 – 10:00 am 11:35 am – 1:00 pm

Session Details

Full session details (including learning objectives) are available online by visiting annualmeeting.acaai.org.

Special Needs

 In compliance with the Americans with Disabilities Act, ACAAI requests that attendees in need of special accommodation submit a written request to ACAAI well in advance of the meeting.

ACAAI 2025 Annual Scientific Meeting

Spouse/Guest Information

ACAAI is pleased to offer spouse/guest registration. If you are planning to bring your spouse or any other family/guests, please select the "Spouse/Guest" option at the time of your registration. The fee provides your spouse/guest with entry to the following:

- Alliance Hospitality Suite (Friday, Saturday and Sunday)
- Alliance Hospitality Suite Presentations
- Friday evening President's Welcome Reception
- Saturday evening FIT Bowl™
- Exhibit Hall (Friday, Saturday and Sunday)

Please note spouse/guest registration is not eligible for CME or other professional education credit.

Temperature

The average temperature in Orlando in November ranges from a low of 60°F to a high of 78°F.

Tracks

To make it easier for participants to identify Annual Meeting sessions that are relevant to their practice, the College has identified ten critical areas for allergy and immunology.

These ten primary areas make up the Annual Meeting Track System:

- Asthma and Respiratory / Sleep Disorders
- Biologics & Pharmacology / Immunotherapy & Diagnostics
- Clinical Immunology & Autoimmune Diseases
- Dermatology
- Drug Allergy
- Environmental & Integrative Medicine
- Food Allergy and GI Disorders
- Population Health / Infectious Diseases & International Travel
- Practice Management / Professional Issues / Advocacy
- Rhinitis / Sinusitis / Ocular and Anaphylaxis

Additional tracks include:

- ACAAI
- Advanced Practice Course
- Allied Health Course
- FIT Program
- Practice Management Program

View all sessions associated with any of these tracks on the [Annual Meeting website](#).

Education Information

This activity is supported by educational grants from commercial interests. Complete information will be provided to participants prior to the activity. Educational credit will be available to attendees. Complete details about accreditation and credit designation are available online.

Target Audience

Medical professionals who treat patients with allergic and/or immunological conditions:

- Practicing Allergists/Immunologists
- Academic Allergists including Training Program and Division Directors
- Allergy/Immunology Fellows-in-Training
- Physician Assistants and Advanced Practice Nurses
- Allied Health Professionals
- Practice Management/Office Administrators
- Primary Care Physicians and other medical professionals

Overall Educational Objectives

At the conclusion of this activity, participants should be able to:

- Identify major advances in key areas of cutting-edge research in immunologic mechanisms and allergic responses, including anaphylaxis and pathophysiology of the upper airways, lungs, eyes, skin, and gastrointestinal tract.
- Demonstrate knowledge of basic processes linking molecular and cellular biology and genetics with allergic pathophysiology and immunodeficiency.
- Translate emerging clinical science principles to clinical practice in patients with allergic and immunologic diseases.
- Evaluate and implement state-of-the-art diagnostic and therapeutic strategies for treating patients with allergic and immunologic diseases.
- Explain the impact of environmental exposures and external influences on patients with allergic disorders.
- Recognize emerging trends in the prevalence of allergic and immunologic disorders and discuss their impact on public health.
- Evaluate the impact of new diagnostic and therapeutic strategies on health care costs and outcomes.
- Discuss processes, tools and technologies for an efficient allergy and immunology practice.

Disclosure Statement

As required by the Accreditation Council for Continuing Medical Education (ACCME) and in accordance with American College of Allergy, Asthma & Immunology (ACAAI) policy, the College must identify and mitigate conflicts of interest for all individuals responsible for the development, management, presentation, and/or evaluation relevant to a CME activity. Disclosed information is reviewed in advance to manage and mitigate any potential conflicts of interest. Disclosure in no way implies that the information presented is biased or of lesser quality; it is incumbent upon course participants to be aware of these factors in interpreting the program contents and evaluating recommendations. All relevant financial relationships have been mitigated. Specific disclosure information for the 2025 Annual Meeting is located on the Annual Meeting website's Education page.

Accreditation Statements

The American College of Allergy, Asthma & Immunology (ACAAI) is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

The American College of Allergy, Asthma & Immunology (ACAAI) is a provider, approved by the California Board of Registered Nursing, Provider Number CEP 17239.

Credit Designation

The American College of Allergy, Asthma & Immunology (ACAAI) designates this live activity for a maximum of **28.75 AMA PRA Category 1 Credit(s)TM**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

The American College of Allergy, Asthma & Immunology (ACAAI) is a provider, approved by the California Board of Registered Nursing, Provider Number CEP 17239 and this activity has been designated for up to **28.75** Continuing Education contact hours.

This continuing medical education activity has been reviewed by the American Academy of Pediatrics (AAP) and is acceptable for a maximum of **28.75** AAP credits. These credits can be applied toward the AAP CME/CPD Award available to Fellows and Candidate Members of the American Academy of Pediatrics.

Continues on next page

Education Information *(Continued)*

Advanced Practice Health Care Providers

One Day Course: This activity has been designated for up to **7.5** Continuing Education contact hours.

The American College of Allergy, Asthma & Immunology (ACAAI) designates this live activity for a maximum of **7.5 AMA PRA Category 1 Credit(s)TM**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Allied Health Professionals

One Day Course: This activity has been designated for up to **6.0** Continuing Education contact hours.

The American College of Allergy, Asthma & Immunology (ACAAI) designates this live activity for a maximum of **6.0 AMA PRA Category 1 Credit(s)TM**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Maintenance of Certification

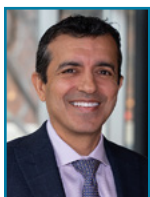

ACAAI will not be designating any 2025 Annual Meeting sessions for MOC Part II Self-assessment Credit. However, you'll find other opportunities to earn MOC Part II Self-assessment credit on the College Learning Connection[®] (education.acaai.org).

IMPORTANT: ABAI's MOC program requires Diplomates to obtain a minimum of 25 CME credits in allergy and immunology each year. CME credits for the Annual Meeting can be applied to this requirement.

Named Lectures

Each year the American College of Allergy, Asthma & Immunology presents Named Lectures during the Annual Scientific Meeting. This year, the Bela Schick and Edward J. O'Connell lectures will be presented. The allergists selected to present named lectures embody the high standards and achievements of the physicians for whom the lectures are named. All lectures will be held at the Orange County Convention Center. The College is proud to present the following Named Lectures.

Bela Schick Lecture

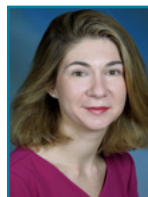

Monday, November 10, 9:03 – 9:23 am

From Buzzwords to Bedside: Making Sense of AI in Clinical Medicine

Rohit K. Katial, MD, FAAAAI

The annual Bela Schick Lectures is named in honor of one of medicine's most respected scientists. Dr. Bela Schick was born in Hungary and attended medical school in Austria. After serving as Extraordinary Professor of Children's Diseases at the University of Vienna, he immigrated to the United States in 1923. He was a pediatrician at Mt. Sinai in New York for many years, loved by his patients and respected by his fellows. Dr. Schick is best known for his work with Clemens von Pirquet on anaphylaxis and for the test he developed to assess immunity in diphtheria.

Edward J. O'Connell Lecture

Sunday, November 9, 8:53 – 9:18 am

Biologics

Giselle S. Mosnaim, MD, MS, FAAAAI

This annual lectureship was established to honor the legacy of Dr. O'Connell, a past president of the College and editor of *Annals of Allergy*. Dr. O'Connell was a caring, compassionate physician with a lifelong passion for treating children and was an adept educator who authored nearly 100 original articles, along with many book chapters related to allergy and immunology.

Livestream Program

The following sessions will be broadcast in real time to registrants who wish to purchase the Livestream option and participate in the meeting from their home or office. All times are Eastern Time. You may register for Livestream access – or for in-person attendance at the meeting – but not both. Livestream registration closes on Wednesday, Nov. 5, 5:00 pm ET. No new registrations or changes of any kind for Livestream afterward.

See **LIVESTREAM**  designated sessions throughout the program for additional details.

Thursday, November 6

Thursday Program • **Separate Registration Fee**

(Livestream attendees must be registered for the General Annual Meeting to enroll in the Thursday Program)

8:00 – 9:30 am	Spotlight on Allergic Conditions of the Skin: Angioedema
10:00 – 11:30 am	Spotlight on Allergic Conditions of the Skin: Chronic Spontaneous Urticaria
1:00 – 2:30 pm	Spotlight on Allergic Conditions of the Skin: Atopic Dermatitis
3:00 – 4:30 pm	Spotlight on Allergic Conditions of the Skin: Contact Dermatitis and Drug Allergy
<i>(Breaks: 9:30 – 10:00 am; 11:30 am – 1:00 pm; 2:30 – 3:00 pm)</i>	

Friday, November 7

Annual Literature Review • **Separate Registration Fee**

(Livestream attendees must be registered for the General Annual Meeting to enroll in the Annual Literature Review)

8:00 am – 4:30 pm	Everything You Should Have Read Last Year, but Didn't!
<i>(Breaks: 9:30 – 10:00 am; 11:30 am – 1:00 pm; 2:30 – 3:00 pm)</i>	

Saturday, November 8

7:40 – 8:00 am	Opening Announcements and Gold Headed Cane Presentation	
8:00 – 9:30 am	Presidential Plenary: The Future of Allergy and Immunology Therapeutics: Looking Over the Horizon	
10:00 – 11:30 am	7 for 11 – Hot Therapeutic Targets in Allergy and Immunology	
1:00 – 2:30 pm	Jeopardy – What's That Rash?	
3:00 – 4:30 pm	Food Allergy Management: An Evolving Landscape	

Sunday, November 9

8:00 – 9:30 am	Plenary: Joint Task Force on Practice Parameters Severe Asthma Update
10:00 – 11:30 am	7 for 11 – Hot Topics in Pediatrics A&I – A Joint Presentation From AAP-SOAI & ACAAI
1:00 – 2:30 pm	Unmet Needs and Future Directions in Food Allergy
3:00 – 4:30 pm	The Evolution of Secondary Immunodeficiency
4:45 – 5:45 pm	ACAAI Annual Business Meeting 

Monday, November 10

8:00 – 9:30 am	Plenary: Drug Allergies Demystified: Practical Approaches for Accurate Diagnosis and Management
9:45 – 11:00 am	Navigating Complex Atopy Across the Lifespan: From Infancy to Young Adulthood
11:15 am – 12:30 pm	Inborn Errors of Immunity – Updates From the Newest Parameter

Hands-on Workshops

Separate Registration Fee • Admission by Ticket Only

Friday, November 7

8:00 – 9:30 am

Limited to Fellows-in-Training Registrants Only

FITs Fee: \$50 • Limit 36

Hands-on Workshop

Patch Testing 101: Basics of Patch Testing for FITs

Moderator: Theresa A. Bingemann, MD, FAAAAI

Participants in this program will be introduced into the realm of patch testing. The topics that will be covered include determining which patients to patch test, basics of applying a patch test, contraindications and precautions in patch testing and the interpretation of results. This program is best suited for attendees with limited prior knowledge of patch testing.

Beginner: Aimed at allergists who do occasional patch testing or who haven't incorporated patch testing into their practices yet with a goal of practice expansion.

Track: FIT Program

- 8:00 am **Welcome and Introductions**
- 8:03 am **Whom to Patch?**
Theresa A. Bingemann, MD, FAAAAI
- 8:13 am **How to Patch?**
Marcella R. Aquino, MD, FAAAAI
- 8:23 am **What Do the Results Mean?**
Luz S. Fonacier, MD, FAAAAI
- 8:33 am **How to Advise Patients?**
Sandra M. Gawchik, DO, FAAAAI
- 8:43 am **Hands-on Training**
Trainers:
Marcella R. Aquino, MD, FAAAAI
Theresa A. Bingemann, MD, FAAAAI
Luz S. Fonacier, MD, FAAAAI
Sandra M. Gawchik, DO, FAAAAI
Ellen R. Sher, MD, FAAAAI
- 9:25 am **Questions & Discussion**
- 9:30 am **Adjourn**

1:00 – 2:30 pm

Open to FITs, Physicians and Allied Health Registrants

Fee: \$195 (FITs: \$50 / AHP: \$50) • Limit 36

(AHP) Hands-on Workshop

Hands-on Workshop

Making the Cut: Shave Versus Punch Skin Biopsies

Moderator: David R. Weldon, MD, FAAAAI

This interactive hands-on session is designed for the allergist to learn how and when to perform punch and shave biopsies. This will include proper shave biopsy and punch biopsy techniques, procedural coding, selection of appropriate patients for each type of biopsy, selection of appropriate lesion and site for the highest diagnostic yield, a review of the materials and transport media and how to interpret the report from the dermatopathologist to aid in the diagnosis and treatment of patients.

Track: Dermatology

- 3:00 pm **Welcome and Introductions**
- 3:03 pm **Adding Biopsies to Your Allergy Practice**
David R. Weldon, MD, FAAAAI
- 3:13 pm **Whom to Biopsy?**
Mark A. Davis-Lorton, MD, FAAAAI
- 3:23 pm **How to Biopsy/Punch?**
Marcella R. Aquino, MD, FAAAAI
- 3:33 pm **How to Biopsy/Shave**

Hands-on Workshop

SQ Immunoglobulin Infusion

Moderator: Kenneth Paris, MD, MPH

Clinicians frequently prescribe gamma globulins for antibody deficiencies but are not very familiar with subcutaneous (SC) administration of immunoglobulins. Increasing knowledge of methods of administration and solutions to common adverse effects of infusion increases the likelihood of patient satisfaction and adherence to therapy. Oversight of these infusions is important. This workshop will provide instruction on methods of SC administration of IG (including facilitated SC infusion) and discuss solutions to address common problems faced by patients infusing SC IG.

Track: Clinical Immunology & Autoimmune Diseases

- 3:00 pm **Welcome and Introductions**
- 3:03 pm **Facilitating SQ Immunoglobulin Infusion**
Kenneth Paris, MD, MPH
- 3:15 pm **Hands-on Training**

Hands-on Workshop

Performing a Rhinolaryngologic Exam (Session One)

Moderator: Jerald W. Koepke, MD, FACAAI

In this session we will demonstrate the use of the fiberoptic rhinoscope in the allergist's office using a video presentation of a rhinolaryngologic exam of the upper airway. Participants will have the opportunity to become familiar with a rhinoscope and perform an exam on a manikin or live "patient." Instructors will be available to provide guidance throughout this informal session.

Track: Rhinitis / Sinusitis / Ocular and Anaphylaxis

- 1:00 pm **Welcome and Introductions**
- 1:03 pm **Rhinolaryngoscopy Presentation**
Jerald W. Koepke, MD, FACAAI
- 1:20 pm **Hands-on Training**
Trainers:
Seong H. Cho, MD, FACAAI
David Elkayam, MD
Jerald W. Koepke, MD, FACAAI
Kevin R. Murphy, MD, FACAAI
Andrej A. Petrov, MD, FACAAI

Thursday Program: Spotlight on Allergic Conditions of the Skin

Thursday, November 6

8:00 am – 5:45 pm

Separate Registration Fee • Admission by Ticket Only

(Participants must be registered for the General Annual Meeting to enroll in the Thursday Program.)

Join us for a full-day educational event, Spotlight on Allergic Conditions of the Skin, designed to explore the latest advancements, diagnostic techniques, and management strategies for a variety of allergic skin disorders. This comprehensive program will provide attendees with expert insights and practical knowledge applicable to clinical practice.

8:00 – 9:30 am

LIVESTREAM 

Angioedema

Moderator: Kristin C. Sokol, MD, MS, MPH, FAAAAI

This session delves into the complexities of angioedema, addressing its varied etiologies, genetic underpinnings, and tailored treatment strategies.

- 8:00 am **Welcome and Introductions**
- 8:03 am **Idiopathic Angioedema – Is It Really Idiopathic?**
Jonathan A. Bernstein, MD, FAAAAI
- 8:30 am **Genetic Variants in Angioedema and Associated Biomarkers: Does This Drive Therapeutic Choices?**
Marc A. Riedl, MD, MS
- 8:55 am **Stepwise Approach to the Treatment of Both Histaminergic and Non-histaminergic Angioedema**
Aleena Banerji, MD
- 9:20 am **Questions & Discussion**
- 9:30 am **Refreshment Break**

10:00 – 11:30 am

LIVESTREAM 

Chronic Spontaneous Urticaria

Moderator: Kristin C. Sokol, MD, MS, MPH, FAAAAI

This session focuses on advancing care for patients with chronic spontaneous urticaria (CSU) by addressing quality of life considerations, diagnostic strategies, and innovative therapies.

- 10:00 am **Welcome and Introductions**
- 10:03 am **How and Why to Measure QoL in the CSU Patient**
Dawn Merritt, DO
- 10:30 am **Choosing Wisely – The Work-up of CSU and Using Biomarkers to Predict Outcomes and Future Therapies**
David A. Khan, MD, FAAAAI
- 10:55 am **New and Exciting Treatments for CSU**
Martin Metz, MD, PhD
- 11:20 am **Questions & Discussion**
- 11:30 am **Adjourn**

11:30 am – 12:45 pm

Luncheon Symposium and Panel Q&A

Chronic Itch

Moderators: S. Shahzad Mustafa, MD, FAAAAI; and
Kristin C. Sokol, MD, MS, MPH, FAAAAI

This session will examine the complex mechanisms underlying chronic itch, highlighting the latest discoveries in its pathophysiology and the role of potential biomarkers in guiding diagnosis and treatment. Attendees will be equipped to address the challenges of managing chronic itch and improving patient outcomes.

- 11:30 am **Lunch**
- Noon **Welcome and Introductions**
- 12:03 pm **Pathophysiology, Potential Biomarkers, and Emerging Treatments of Chronic Itch**
Timothy Berger, MD
- 12:23 pm **Panel Q&A**
- 12:45 pm **Adjourn**

Thursday Program: Spotlight on Allergic Conditions of the Skin

Thursday, November 6

8:00 am – 5:45 pm

Separate Registration Fee • Admission by Ticket Only

(Participants must be registered for the General Annual Meeting to enroll in the Thursday Program.)

1:00 – 2:30 pm

LIVESTREAM 

Atopic Dermatitis

Moderator: Anil Nanda, MD, FAAAAI

This session provides a comprehensive exploration of the foundational approaches and the latest advancements in the management of atopic dermatitis. Expert presentations will guide clinicians in integrating therapies into personalized care plans to enhance outcomes for patients with atopic dermatitis.

- 1:00 pm **Welcome and Introductions**
- 1:03 pm **Back to Basics: The Data Behind Emollients, Bleach Baths, and Wet Wraps**
Peter A. Lio, MD
- 1:30 pm **Current and Emerging Biologics for Atopic Dermatitis**
Mark Boguniewicz, MD, FAAAAI
- 1:55 pm **Navigating JAK Inhibitors: Timing and Strategies for Use in Atopic Dermatitis**
Clinton P. Dunn, MD, FAAAAI
- 2:20 pm **Questions & Discussion**
- 2:30 pm **Refreshment Break**

3:00 – 4:30 pm

LIVESTREAM 

Contact Dermatitis and Drug Allergy

Moderator: Anil Nanda, MD, FAAAAI

This session focuses on the role of patch testing in diagnosing and managing allergic skin conditions, including contact dermatitis, drug-induced rashes and metal and implant hypersensitivity.

- 3:00 pm **Welcome and Introductions**
- 3:03 pm **Patch Testing 101**
Robert Sporter, MD, FAAAAI
- 3:30 pm **Diagnosing Drug-induced Rashes in Clinical Practice: Should We Be Patch Testing?**
Ana Maria Copaesu, MD, PhD
- 3:55 pm **Delayed Hypersensitivity to Metals and Other Implants**
Luz S. Fonacier, MD, FAAAAI
- 4:20 pm **Questions & Discussion**
- 4:30 pm **Adjourn**

4:30 – 5:45 pm

ProCon Debate

Refreshments Provided

Moderator: Kristin C. Sokol, MD, MS, MPH, FAAAAI

This engaging session features pro/con debates on controversial topics in the management of allergic skin diseases. Experts will present opposing viewpoints on key clinical questions, providing evidence-based arguments and practical insights.

- | | | | |

Everything You Should Have Read Last Year but Didn't!

To help you stay abreast of the latest clinical developments in allergy and immunology, the College will continue its highly successful literature review program. This is a review of the most important, clinically focused literature of our specialty published between November 2024 and September 2025, with emphasis on clinical relevance. Faculty includes allergy/immunology training program directors and specialists in practice.

Friday General Sessions

6:45 – 7:45 am
Non-CME Corporate Forums

8:00 – 9:30 am

Symposium

Insights Into Eosinophilic Lung Diseases

Moderators: *Jeremy S. Katcher, MD, FAAAAI; and Zachary W. Marshall, MD*

Eosinophils are responsible for diverse and under-recognized diseases of the lungs. New research has led to greater understanding of eosinophil biology and the pathogenic role of eosinophils in lung disease. This session will include discussion of the differentiation, evaluation, and management of some eosinophilic lung diseases.

Track: Asthma and Respiratory / Sleep Disorders

- 8:00 am **Welcome and Introductions**
- 8:03 am **Allergic Bronchopulmonary Aspergillosis and Airway Mycosis**
Dennis K. Ledford, MD, FAAAAI
- 8:28 am **Beyond Asthma: The Spectrum of Eosinophilic Lung Disorders**
Paneez Khoury, MD
- 8:53 am **The Role of Biologics in Non-asthmatic Eosinophilic Pulmonary Disease**
Praveen Akuthota, MD
- 9:18 am **Questions & Discussion**
- 9:30 am **Adjourn**

8:00 – 9:30 am

Clinical Conundrum

Clinical Conundrums in Anaphylaxis: Let the Practice Parameters Be Your Guide

Moderators: *Michael Pistiner, MD, MMSc, FAAAAI; and Karina R. Rotella, MD*

This interactive, case-based session will highlight the evaluation of anaphylaxis of uncertain cause, the use of serum tryptase in anaphylaxis and use of shared decision making in anaphylaxis including when to test, when to prescribe epinephrine and when to activate EMS.

Track: Rhinitis / Sinusitis / Ocular and Anaphylaxis

- 8:00 am **Welcome and Introductions**
- 8:03 am **A Case of Anaphylaxis of Unknown Cause: Recognizing Cofactors and Alpha-gal Syndrome**
Jay A. Lieberman, MD, FAAAAI
- 8:28 am **A Case to Make a Case to Check Labs: Evaluation of Serum Tryptase**
David BK Golden, MD, FAAAAI
- 8:53 am **A Case of Anaphylaxis of Known Cause: When to Test, When to Prescribe Epinephrine, When to Prescribe 911**
Marcus S. Shaker, MD, FAAAAI
- 9:18 am **Questions & Discussion**
- 9:30 am **Adjourn**

Friday General Sessions

10:00 – 11:30 am

Symposium

Earth, Wind and Fire: Impacts of Climate Change and the Atopic Patient

Moderators: Dan A. Dalan, MD, FAAAAI; and
Annette F. Carlisle, MD

Our ecosystem is changing. As a result of increasing greenhouse gases and rising global temperatures, we are witnessing unprecedented rise in pollen exposure with prolonged, more intense seasons and increasing allergenicity. More frequent storms and flooding can affect patient health via increased exposure to pollen, molds, and pollution that impact allergic and respiratory disease.

Track: Environmental & Integrative Medicine

- 10:00 am **Welcome and Introductions**
- 10:03 am **Earth: Impact of Climate Change on Plant Biology and the Impact on Allergic Disease**
Jeffrey G. Demain, MD, FAAAAI
- 10:23 am **Wind: Storms, Flooding, Mold, Thunderstorm Asthma**

Symposium

WAO – World Allergy Forum – Management of Severe Immunoallergic Diseases: Where Are We Going?

Moderators: Gailen D. Marshall, Jr., MD, PhD, FAAAAI; and
Mario Morais-Almeida, MD

The immunologic diseases including anaphylaxis, food allergy, asthma, hereditary angioedema, and atopic dermatitis are becoming more prevalent worldwide and more severe, representing more than 80% of the problems treated by allergists and clinical immunologists. As the burden of these diseases increases, clinicians seek better ways to manage and treat patients with severe forms of allergies.

Symposium

Practical Approaches to Drug Hypersensitivity: Managing Diverse Populations and Real-world Challenges

Moderators: Dana V. Wallace, MD, FAAAAI; and
Brooke I. Polk, MD, FAAAAI

This session will provide practical, evidence-based approaches to managing drug hypersensitivity reactions across diverse patient populations, including special considerations for pediatrics, pregnancy, bone marrow transplant (BMT) recipients, and the outpatient setting. Experts will offer insights on diagnostic strategies, delabeling protocols, and management of delayed reactions, addressing common challenges encountered in the real world. Attendees will gain practical tools to improve patient care and optimize drug allergy management in a variety of clinical contexts.

3:00 – 4:30 pm

Symposium

Updates in Eosinophilic Esophagitis

Moderators: Brian C. Schroer, MD; and
Rachel L. Schreiber, MD, FAAAAI

This session will cover the latest updates in the diagnosis, management, and monitoring of eosinophilic esophagitis (EoE), including tools like the string test and EndoFLIP; review symptom scores, and nutritional labs. We will also explore remission strategies, genetic insights, and phenotyping, as well as address challenging cases such as severe persistent EoE, EoE/IBD overlap, and situations where current algorithms don't apply. Attendees will gain practical knowledge for navigating complex EoE cases and optimizing patient care.

Track: Rhinitis / Sinusitis / Ocular and Anaphylaxis

4:30 – 6:00 pm

Symposium

FIT Integrated Educational Program and Business Meeting

Transition From Fellowship to Clinical Practice

*Moderators: Kylie N. Jungles, MD; and
Amber N. Hardeman, MD, MPH, MBA*

This session will assist Fellows-in-Training to prepare for the transition from fellowship into clinical practice. The goal of this session is to provide tips on negotiating your first attending contract and understanding how new allergists can become involved in professional societies.

Allergy/Immunology Career Blueprint: Round Table Discussions for Building a Successful Career

*Limit 54. Seats Available on a
first-come, first-served basis.*

Geared toward Fellows-in-Training and New Allergists, this series of round table discussions will explore key strategies for building a successful career in allergy and immunology, including insights on networking, communication skills, and well-being. Panelists will share personal experiences, discuss challenges, and offer practical advice on balancing clinical excellence with professional growth. Participants will have the opportunity to ask questions and engage in an open discussion to gain actionable takeaways for their own career paths.

See page 39 for details.

The Future of Allergy and Immunology Therapeutics: Looking Over the Horizon

Moderator: James M. Tracy, DO, FAAAAI

The past 30 years have been a dynamic period of therapeutic advances. The next 30 years will see exponential changes and further advances. This session, using what we have learned at the molecular and cellular level in the past, will compel us to look over the horizon and see what will propel us over the next 30 years diagnostically and therapeutically.

7 for 11 – Hot Therapeutic Targets in Allergy and Immunology

Moderator: Jared Darveaux, MD, FAAAAI

Jump directly to the cutting edge of our field and learn about 7 novel immune targets under investigation for the treatment of atopic disease. This high-yield, bench-to-bedside session will provide a quick immunology refresher for inquisitive providers curious to know what's next. Sit back and consider how costimulatory molecules, cytokines and their receptors, signal transduction pathways, and biosensors could further revolutionize the way we practice.

Advancing Public Health Through Advocacy

Moderators: James L. Sublett, MD, FAAAAI; and
J. Wesley Sublett, MD, MPH, FAAAAI

Many allergists spend their days committed to helping patients optimize their health, but what can physicians do on a population scale to protect the health of our communities? Advocacy efforts drive policies that have profound impacts on patients' health, and physicians have the opportunity to shape these efforts. In this session, we will discuss the importance of advocacy on public health, the essential role of physicians in these efforts, and the ways in which allergists can get involved.

Practical Applications at Work

When Nasal Corticosteroids Fail – Nasal Congestion, Non-allergic Rhinitis and Laryngopharyngeal Reflux

Moderators: Lara M. Gross, MD; and Andrew Cooke, MD

Do you need help dealing with some of the most common complaints we see in clinic? This session will review the diagnostic considerations and treatment opportunities allergists should consider in patients with symptoms that are refractory to initial management. Many symptoms may be caused or complicated by laryngopharyngeal reflux which will be directly discussed in this session.

Little Lungs, Big Challenges: Navigating the Complexities of Pediatric Asthma (0-4 years)

Moderators: Angela D. Hogan, MD, FAAAAI; and Juan Carlos Murillo Delgado, MD, FAAAAI

The diagnosis and management of asthma in young patients offers unique challenges. The natural history and disease progression, varying triggers, and dearth of clinical trials for the use and efficacy of available treatments in these very young patients can hamper our ability to provide care. In this session, participants will learn to identify the challenges in diagnosis and management, strategies for treatment, and what's new on the horizon in pediatric asthma.

Clinical Conundrum

Navigating Current Treatments for Food Allergy

Moderators: Jonathan S. Tam, MD, FAAAAI; and
Justin C. Greiwe, MD, FAAAAI

The landscape of food allergy management has evolved significantly, shifting from strict allergen avoidance to the introduction of targeted immunotherapies. Up until recently, there has been a lack of available therapeutic options for the management of food allergy. The recent approval of omalizumab, alongside earlier therapies, offers clinicians a range of options to manage IgE-mediated food allergies effectively. The integration of these new treatments into clinical practice requires an understanding of their benefits, risks, and appropriate application within a patient-centered care framework.

Omalizumab is a novel therapy approved for prevention of allergic reactions in patients with food allergies. How does it compare to traditional (current) therapies? This session will address unanswered questions that remain: Which patients can benefit most from omalizumab compared to other treatments? What are the dosing considerations and how do they change as a patient's weight increases? Should patients on omalizumab undergo a food challenge to "prove" efficacy of the treatment as compared to other therapies? Should new biologics be used as an adjunct for patients with other types of food adverse reactions and related conditions?

Beta-lactam Allergies: More Than Penicillin

Moderators: William C. Anderson, III, MD, FAAAAI; and
John Kuryan, MD, FAAAAI

When discussing beta-lactam allergies, penicillin allergy immediately comes to mind, with a broad push in recent years focused on removing this label when possible. However, beta-lactam antibiotics also include cephalosporins, monobactams, and carbapenems. Considering the broader family of beta-lactam antibiotics, what lessons hold true from penicillin and what unique approaches are required for these other antibiotics? In this session, we will develop a practical approach to other non-penicillin beta-lactams with an emphasis on population health and real-world management.

Ask the Experts

Nuts and Bolts of Social Media for the Allergist

Moderator: Sakina S. Bajowala, MD

More than 70% of adults are seeking health information online. Starting as blogs more than a decade ago, social media platforms have grown exponentially since then. Our patients are frequently accessing health information online. While there has been an increase in healthcare professionals on these platforms, the distribution of misinformation – or poor-quality health related information – unfortunately continues. Navigating this landscape is important for allergists. In this session, we will talk about how to get started with social media, pitfalls to avoid, legal and ethical implications to consider, tips and tricks to create engaging educational content on various platforms including Tik Tok, Instagram, Facebook, X (formerly known as Twitter), YouTube and podcasts, and how to give media interviews.

Choose three of the six topics and spend 25 minutes with each expert. The expert will give a five-minute overview of the topic and will then answer questions and facilitate discussion with the table participants for 20 minutes.

Track: Practice Management / Professional Issues / Advocacy

Symposium

Introductory Course in Rhinologyngoscopy

Moderator: Jerald W. Koepke, MD, FAAAAI

Indications for, and the use of, the fiberoptic rhinoscope in the allergist's office will be reviewed. This session will discuss the surgical anatomy of the upper airway, including the nasal cavity, pharynx, and larynx as seen during a fiberoptic examination of the upper airway using a rhinoscope. Slides and video clips that identify normal and abnormal anatomy, as well as disease presentations, and post-operative changes found by endoscopic examination of the upper airway, will be provided.

Track: Rhinitis / Sinusitis / Ocular and Anaphylaxis

Symposium **LIVESTREAM** 

Unmet Needs and Future Directions in Food Allergy

Moderators: Aikaterini Anagnostou, MD, MSc, PhD, FAAAAI; and Lindsey E. Moore, DO, FAAAAI

This session will address current challenges and unmet needs in a variety of areas in food allergy, including prevention, diagnostics and therapeutics. Novel therapies will be highlighted and patient-reported outcomes will be described, with a focus on future directions in the field.

Track: Food Allergy and GI Disorders

- 1:00 pm **Welcome and Introductions**
- 1:03 pm **Challenges and Barriers in Food Allergy Prevention**
David M. Fleischer, MD, FAAAAI
- 1:23 pm **Novel Approaches to Food Allergy Diagnostics**
Wayne G. Shreffler, MD, PhD
- 1:43 pm **Unmet Needs in Food Allergy Therapies**
Phillippe Bégin, MD, PhD

Symposium

Allergen Immunotherapy: Safety Considerations From the 2025 JTF Immunotherapy Practice Parameter

Moderators: Stanley M. Fineman, MD, MBA, FAAAAI; and Matthew R. Elliott, MD

Allergen immunotherapy is a cornerstone of allergy practice. The updated practice parameter is almost complete, and this session will highlight clinically relevant safety considerations associated with allergen immunotherapy.

Track: Biologics & Pharmacology / Immunotherapy & Diagnostics

- 1:00 pm **Welcome and Introductions**
- 1:03 pm **Who Should Receive an Epinephrine Prescription?**
Tolly E. Epstein, MD, MS, FAAAAI
- 1:28 pm **What Should I Do With Older Patients Receiving Beta Blockers and Angiotensin Inhibitors?**

Sunday General Sessions

1:00 – 2:30 pm

Clinical Conundrum

Multifaceted Approach to Patients With AERD and CRSwNP

Moderators: Mechelle Miller Vazquez, MD; and
Ruby U. Pawankar, MD, PhD

The approach for aspirin exacerbated respiratory disease has changed over the past decade; however, many patients may benefit from a more targeted approach. Many options exist and a thorough discussion on shared decision making is needed to provide the optimal management strategies for patients. This session will offer strategies to use topical nasal steroids, leukotriene modifying agents, aspirin desensitization, and when biologics may be most appropriate. There is not a one-size fits all solution.

Track: Rhinitis / Sinusitis / Ocular and Anaphylaxis

- 1:00 pm **Welcome and Introductions**
- 1:03 pm **A Case for Aspirin Desensitization**
Andrew A. White, MD, FAAAAI
- 1:28 pm **A Case for Topical Steroids and Leukotriene Modifying Agents**
Shyam R. Joshi, MD, FAAAAI
- 1:53 pm **A Case for Biologics**
Whitney Stevens, MD, PhD, FAAAAI
- 2:18 pm **Questions & Discussion**
- 2:30 pm **Adjourn**

1:00 – 2:30 pm

Symposium

Managing Chronic Urticaria With Current and Future Biologics and Small Molecules

Moderators: Frank S. Virant, MD; and
Dylan T. Timberlake, MD

A new lineup of therapies is being (or will be) approved for CSU in the near future. These therapies will revolutionize the care of CSU for years to come. This symposium will review the new therapies in the field and discuss how they are similar to or different from the limited options that were previously available. This will include an evaluation of BTK inhibitors, KIT inhibitors, and anti-IL-4/IL-13 biologics.

Track: Dermatology

- 1:00 pm **Welcome and Introductions**
- 1:03 pm **Are We Ready for a BTK Inhibitor?**
Sarbjit S. Saini, MD
- 1:28 pm **KIT Inhibitors and CSU: How Close Are We to Having This Available?**
David M. Lang, MD, FAAAAI
- 1:53 pm **Biologics and How They Fit Into the Treatment Paradigm**
Nicole M. Chase, MD, FAAAAI
- 2:18 pm **Questions & Discussion**

Sunday General Sessions

3:00 – 4:30 pm

Symposium **LIVESTREAM** 

The Evolution of Secondary Immunodeficiency

Moderators: Niraj C. Patel, MD, MS, FAAAAI; and
Barbara K. Ariue, MD, FAAAAI

This session will focus on the growing concern of secondary immunodeficiencies (SID), particularly those induced by therapies such as B cell depletion and advanced treatments like CAR T cell therapy. Experts will explore the underlying mechanisms, diagnostic approaches, and current management strategies for SID, with a focus on improving patient care and outcomes. Attendees will gain valuable insights into the impact of these therapies on immune function and the best practices for monitoring and managing SID in clinical settings.

Track: Clinical Immunology & Autoimmune Diseases

- 3:00 pm **Welcome and Introductions**
- 3:03 pm **Secondary Immunodeficiency Due to B Cell Depletion**
Sara Barmettler, MD
- 3:28 pm **Secondary Immunodeficiency Due to Other Therapies, Including CAR T Cell**
Antoine E. Azar, MD
- 3:53 pm **Management Strategies for Secondary Immunodeficiency**

- 4:30 pm **Adjourn**

3:00 – 4:30 pm

Symposium

Persistent Problems, Unified Solutions: A Multidisciplinary Approach to Chronic Cough

Moderators: John J. Oppenheimer, MD, FAAAAI; and
Robert Sporter, MD, FAAAAI

Chronic cough is a common problem that plagues patients of all ages who frequently end up in the office of one or more sub-specialists. The cause of the cough can often be traced to conditions in the upper airway, lower airway, or GI tract, and may require a multidisciplinary approach for diagnosis and management. In this session, neural pathways of the cough reflex will be reviewed along with new advances in evaluating and managing common and not-so-common causes of chronic cough using an interdisciplinary approach.

Track: Asthma and Respiratory / Sleep Disorders

- 3:00 pm **Welcome and Introductions**
- 3:03 pm **The Mind-lung Connection: The Cough Reflex and Medical Management**

Symposium

Is There a Doctor on the Plane?

Moderators: Brian T. Kelly, MD, MA, FAAAAI; and
Kevin D. Lindgren, MD

Despite our best anticipatory guidance and prophylactic care, allergic emergencies still occur. This can be particularly stressful for both patients and providers if this occurs during an unfamiliar situation such as travel. This session will provide guidance on the resources available for providing emergency care. In addition, we will discuss implications for patients traveling with biologics.

Track: Population Health / Infectious Diseases & International Travel

- 3:00 pm **Welcome and Introductions**
- 3:03 pm **Emergency Resources and the Roles of In-flight Professionals**
Paulo M. Alves, MD, MSc

Symposium

Envisioning Integrative Medicine Therapies in Allergy Practice

Moderators: Don A. Bukstein, MD, FAAAAI; and
Olabunmi Agboola, MD

The wellness market is a \$6.3 trillion industry, with more than 65% of Americans using some form of integrative therapeutic. To better serve our patients, it is essential for allergists to educate themselves about evidence-based integrative modalities and how to collaborate with alternative practitioners in delivery high quality patient care. This session will cover topics such as distinguishing evidence-based supplements and interventions from fads, Ayurvedic practices for allergy & immunology, mental health interventions for those suffering psychological impact from allergic disease, and lifestyle changes for microbiome manipulation, focusing on practical, evidence-based strategies for improving patient outcomes.

Track: Environmental & Integrative Medicine

Ask the Experts

Complexities in Food Allergy Patients

Moderator: Joyce E. Yu, MD, FAAAAI

This session focuses on the therapeutic and management considerations and strategies in treating complex food allergy patients who have concomitant allergic conditions including FPIES, severe eczema, and EoE as well as infants and toddlers who have had anaphylaxis. Challenges in diagnostic interpretation and determining when to treat with OIT vs milk/egg laddering will also be discussed.

Choose three of the six topics and spend 25 minutes with each expert. The expert will give a five-minute overview of the topic and will then answer questions and facilitate discussion with the table participants for 20 minutes.

Track: Food Allergy and GI Disorders

3:00 pm **Welcome and Introductions**

Table Rotations: 3:05 pm, 3:30 pm, 3:55 pm

Drug Allergies Demystified: Practical Approaches for Accurate Diagnosis and Management

Moderator: Kristin C. Sokol, MD, MS, MPH, FAAAAI

This session will explore practical approaches to diagnosing and managing drug allergies, focusing on challenges faced by both academic and community allergists. Topics will include the latest diagnostic tools, interpreting allergy testing results, and evidence-based strategies for managing common and complex drug reactions. Attendees will gain actionable insights on optimizing patient care, improving diagnostic accuracy, and navigating treatment options for drug allergies in clinical practice. Rounding out this session will be the annual Bela Schick Lecture.

Track: Drug Allergy

- 8:00 am **Welcome and Introductions**
- 8:03 am **Nuts and Bolts: Practicalities of Drug Allergy Evaluations in the Office**
Allison C. Ramsey, MD, FAAAAI
- 8:23 am **Spectrum of and Novel Treatments for Delayed Hypersensitivity Reactions**

Practical Applications at Work

Immunotherapy in the Era of Biologics

Moderators: Gailen D. Marshall, Jr., MD, PhD, FAAAAI; and
Amber N. Hardeman, MD, MPH, MBA

There is a lack of scientific consensus on the concomitant use of allergen immunotherapy and biologics for atopic disease. This session will address the benefits, risks, advantages, and shortcomings of simultaneously prescribing these two treatment options as relevant to outcomes in asthma and food allergy.

Track: Biologics & Pharmacology / Immunotherapy & Diagnostics

Creative Solutions for Addressing Asthma Management in Different Settings

*Moderators: Carla M. Davis, MD, FAAAAI; and
Cherie Y. Zachary, MD, FAAAAI*

In this session, we will begin with a brief overview of the disparities and inequities present in asthma care. Following this, we will engage in a moderated discussion with experts actively working on solutions to address these issues. Each expert should review different solutions that can help reduce disparities observed in various demographic groups, including Native, Latino/a, Black, and Asian populations.
