Spectacular Beatles tribute band – the Fab Four – to perform at Fundraising Dinner

Go back to a time when four lads from Liverpool ruled the world of music at the Annual Fundraising Dinner in Anaheim, Sunday, Nov. 11.

The Fab Four – billed by the *LA Times* as the best Beatles show in the world -- is elevated far above every other Beatles tribute band due to their precise attention to detail. Their uncanny, note-for-note live renditions of Beatles' songs will make you think you're watching the real thing.

Their dazzling live show is complete with colorful costumes, vintage guitars and incredible vocals. Dance to the early rockers or sit back and listen to their mesmerizing harmonies in ballads and love songs.

This loving tribute to the Beatles has amazed audiences around the world, including Japan, Australia, France, Hong Kong, The United Kingdom, Germany, Mexico and Brazil.

Hear record-perfect live performances of such classics as "Can't Buy Me Love," "Yesterday," "A Day in the Life," "Twist and Shout," "Here Comes the Sun," "Back in the U.S.S.R." and "Hey Jude."

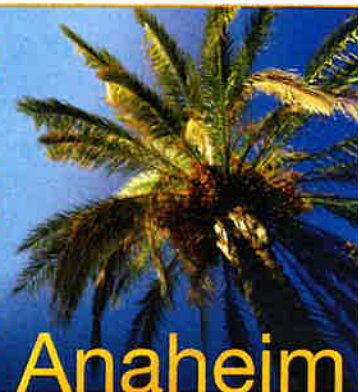

The fundraising program includes a reception, dinner and performance. Net proceeds from the event will be donated to the ACAAI Foundation to support Fellows-in-Training Program Relief Grants, Young Faculty Support Awards and other Foundation programs.

Look over the horizon Expand your expertise

Join your colleagues at the 2012 ACAAI Annual Scientific Meeting in sunny Anaheim, Calif., Nov. 8-13, titled *Over the Horizon: Expanding Expertise*.

"My concept of our theme is in the form of an image looking out toward the horizon," said **Richard Weber, MD, FACA**, president-elect and program chair. "There has been encroachment of our allergy-immunology territory by other specialists, primary caregivers, and even non-medical entities, squeezing and shrinking it. Therefore, our practices are changing. Since our training extends over the horizon of what we have typically done and seen, we have expertise that allows us to expand into areas of medical management that are just over that horizon."

"Working with ACAAI Vice President **Michael Foggs, MD, FACA**, Symposium Committee chair, it is our Annual Program Committee's goal for this meeting to present for discussion areas we have

knowledge about and in which we can manage patients as effectively, or better, than other practitioners," he said.

The XIV International Food Allergy Symposium on Thursday, Nov. 8, will expand your diagnosis and management armamentarium. The full day symposium is co-chaired by **Amal Assa'ad, MD, FACA**, **Sami Bahna, MD, DrPH, FACA**, and **Alessandro Fiocchi, MD, FACA** (SC). (See story on page 3).

What to do about those medical journals you haven't had time to read? Expert
